

Complimentary Resources

Getting Started Loaner Kits

Turning Technologies will provide two free “kits” of 30 ResponseCards each for the purpose of training or short-term faculty loan. Interns can use the kits to introduce the technology to new faculty, and instructors can use the kits to gauge their interest in adopting student response as a classroom technology.

Clicker Buyback Program

In order to reduce student cost, Turning Technologies will offer UMass – Lowell students a \$10.00 discount when exchanging a competitive device. This program is applicable with participating bookstores. Turning Technologies will reimburse the bookstore by check or invoice credit.

Replacement of Existing Receivers

Each instructor using student response will be provided with a free receiver. In addition, Turning Technologies will replace any competitive receiver on campus free of charge, and provide IT with 25 additional receivers to accommodate ongoing growth and expansion.

Educational Consulting Services

Educational Consultants support instructors with an array of services, and assist in strengthening instructional development through the use of purposeful technology. Turning Technologies will provide the services of our Educational Consultants complimentary for any instructor wishing to receive assistance.

- **Custom Standards** - Instructors can have a custom list of standards built specifically for their course objectives. Track student progress on key topics throughout the term, or throughout their education.
- **Content Conversion** - Educational Consultants will work directly with instructors to convert any existing content into TurningPoint compatible slides or question lists. This includes setting up scoring structures and correct answers.

Complimentary Resources

Distinguished Educator Event

Turning Technologies Distinguished Educator Program is comprised of a select group of faculty from across the country, exceptional not only in their field of instruction, but also particularly innovative in their use of student response. All of our Distinguished Educators boast an impressive vitae, and many of them have published articles and whitepapers related to the effective use of student response.

Turning Technologies will sponsor one on campus Distinguished Educator event per semester for the first year of implementation. In addition, custom best practice webinars can be scheduled at any time to promote sound pedagogical use of the technology.

Comprehensive Campus Training

Turning Technologies offers a wide array of training options to suit your needs. In addition to video tutorials, personalized webinar trainings, regularly scheduled public trainings, and campus intern program, Turning Technologies will also provide (at least) one free on-site training per semester. Our training specialists will work with your campus to customize a training program that is right for your faculty. We also offer free Master Certification training for your on campus support specialists.

We've been absolutely delighted with the support and training services Turning Technologies has provided us. The resources available on the website are excellent, the live webinars have been incredibly helpful, and the assistance we've received via phone support has been top-notch.
