

FREE Instructor Devices

Instructor Kits Equip Faculty With All the Tools They Need

Description:

Turning Technologies equips faculty with all the tools they need to be successful. Any professor that chooses to use ResponseCards in their courses will receive a free ResponseCard, a free receiver, a free PresenterCard, and a helpful guide to get up and running quickly.

Offer:

Every instructor on campus using clickers will be equipped with an 'instructor kit' including a clicker, a receiver, a PresenterCard (for controlling the software), as well as a quick start guide. These are provided **in addition to** the free receivers provided for the campus classrooms.

Benefits:

- Ensures that instructors are equipped for any environment. If every classroom isn't equipped with a receiver, an instructor can just bring their own.
- Allows instructors to test the student experience as well as their presentations from their office.
- Since instructors are equipped with a student device, they can bring it to class to lend it to the forgetful student.
- PresenterCards help instructors stay mobile in the classroom without being tied to the computer.
