

TurningPoint

Turning Technologies' focus has been to consolidate and streamline the user experience through an enhanced interface and simplified work-flow.

Polling in PowerPoint

Polling Anywhere

Self-Paced Testing

NEW

TurningPoint Software Release Highlights:

- A new version of TurningPoint for Mac PowerPoint 2011
- A new central interface to manage:
 - **Polling – PowerPoint, Anywhere and Self-Paced**
 - **Participants**
 - **Content**
 - **Sessions**
 - **Reports**
- Robust HTML content editor that supports question list development
- A new reporting engine that allows for the creation of "custom" reports – easily exportable to .CSV, .XLS, and .PDF files
- "On-demand" integrations provide the ability to import participant lists from existing LMS integrations and "sync" multiple session data at once
