

UMass Lowell Clicker Transition

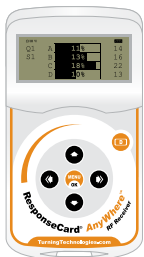

Without the guidance and support that Turning Technologies has provided to Boston University, the introduction and adoption of clickers in the classroom would have been a much more challenging and time consuming process. The demonstration, training and technical assistance provided to our instructors and the company's commitment to our needs added a tremendous value and fostered a true partnership for success.

- Domenic Scenci, Ed.D., Executive Director, Boston University

Simple and Diverse Polling Solutions for Instructors

Remote Polling Receiver for Instructors

ResponseCard AnyWhere
Poll Without a Computer or Projector and Display Student Results Anywhere, Anytime

Response Options for Students

ResponseWare
Students Respond Via Web Browsers on ANY Web-Enabled Device or Through App Versions Available for Smartphones

Resources to Assist with a Successful Implementation

- **Distinguished Educator Program** - Promote positive instructional practices and research-based pedagogical uses of student response.
- **Implementation Specialist Program** - Assure an effective, smooth, and well-rehearsed approach to the implementation of a new campus technology.
- **Campus Internship Program** - Facilitate a more successful classroom experience for both the instructor and students in the early stages of clicker use.
- **TurningTalk User Community** - Provides users with an opportunity to share ideas, research, content materials, interactive questions and published works.
